

Loeeje Miguel Dulaugon

Fullstack Developer

Prk. Macopa Brgy. Cagangohan, 8105 Panabo · loejeemigueldulaugon@gmail.com · +63 991 229 2809

PROFESSIONAL SUMMARY

Computer Science student at Ateneo de Davao University with hands-on experience in frontend development and technical project management. Proficient in building scalable, component-driven web interfaces using Next.js, React, Tailwind CSS, and Radix UI. Demonstrated ability to lead projects end-to-end — from client requirements to deployment — across multiple production websites. Recognized for technical excellence, placing 1st in the ICpEP Python Programming Competition and leading Capture The Flag as Event Head for IT Week 2025 and 2026.

WORK EXPERIENCE

FRONTEND DEVELOPER

Dec 2023 — Present

SAMAHAN Systems Development

Davao City

- Developed the **Palaro** sports event website using Next.js, Tailwind CSS, Radix UI, Storybook, and Supabase, delivering a responsive and accessible public-facing interface.
- Built the **ACMS (Automated Crowd Management System)** frontend for IT Week, leveraging Next.js, Radix UI, Storybook, and Supabase to streamline event crowd tracking.
- Developed the **All for More** campaign website with Next.js, Tailwind CSS, Radix UI, Storybook, and Supabase, contributing to a consistent and reusable component library.
- Engineered the **ADTO Event Booking Management System** for university-wide events, integrating Next.js, Radix UI, TanStack Query, Zustand, CVA, and Supabase for scalable state and variant management.
- Built the **SAMAHAN Communications Newsfeed**, a news platform for the student government, using Next.js, Tailwind CSS, Radix UI, CVA, Storybook, and Supabase.
- Implemented modular, reusable UI components across multiple projects, improving interface consistency, load performance, and overall user engagement.

PROJECT MANAGER

Jun 2025 — Present

MadePoies

Davao City

- Led end-to-end development of **Cruzalloma Farm**, a business landing page built with React and Tailwind CSS, from planning through delivery.
- Managed and developed the **Dulaugon Blacksmith** landing page using Next.js and Tailwind CSS.
- Delivered **Eizou Films'** landing page with Next.js and Tailwind CSS, integrating Sanity CMS for content management and Calendly for client booking.
- Built the **KabayanGroup** business website on WordPress, tailoring the setup to non-technical client needs.
- Developed the **MadePoies Official Website** with Next.js, Tailwind CSS, and EmailJS, enabling direct client inquiry through contact form integration.

EDUCATION

UNDERGRADUATE BS IN INFORMATION TECHNOLOGY

Aug 2023 – Present

Ateneo De Davao University

Davao City

- 1st Place, Programming Competition** (Python) — ICpEP Challenge 2023, LPU Davao City (Nov. 29, 2023)
- Event Head, Capture The Flag** — IT Week 2025 & 2026
